International Observe the Moon Night is a worldwide celebration of lunar science and exploration held annually since 2010. One day each year, everyone on Earth is invited to observe and learn about the Moon together, and to celebrate the cultural and personal connections we all have with our nearest neighbor. Called Luna by the Romans, Selene and Artemis by the Greeks, and many other names in other mythologies. The Moon, of course, has been known since prehistoric times. It is the second brightest object in the sky after the Sun. As the Moon orbits around the Earth once per month, the angle between the ... Moon is a 2009 science fiction film directed by Duncan Jones and written by Nathan Parker from a story by Jones. The film follows Sam Bell (Sam Rockwell), a man who experiences a personal crisis as he nears the end of a three-year solitary stint mining helium-3 on the far side of the Moon. It was the feature debut of director Duncan Jones. Kevin Spacey voices Sam's robot companion, GERTY. 10 synonyms of moon from the Merriam-Webster Thesaurus, plus 2 related words, definitions, and antonyms. Find another word for moon.
